

# Zen 4.0.0 Release Notes

Zen 4.0 is a major update for Zen 3.2, redesigned to make it easier, more intuitive, and more fun to use. Here are a few highlights:

- Drag-and-drop page layout
- Micro-content editing
- Improved drafts & publishing
- Complete version history for all content
- New master page layouts
- Realtime-preview design wizard
- Page auto-numbering
- Improved blog display
- iPad support

## Plugin Compatibility

- Adaptavist Dashboards
- Community Bubbles

We've also posted the Illustrator file containing layers for all the Zen graphics to make it easier to match your color palette. [Download the file here.](#)

### **i** Important Information for Zen 3.2 Users

Zen 3.2 users will see an upgrade-to-Zen-4.0 warning message when viewing pages in Zen spaces. Confluence administrators should follow the link in the message, then complete the instructions to perform the upgrade.

### **i** Important Information for Zen 3.2 Users Upgrading to Confluence 4.0

Before upgrading to Confluence 4.0, upgrade Zen 3.2 to Zen 4.0.

## Administration

JIRA Issue	Description
ZEN-276	Admin screen to view which pages are overriding the Zen Master
ZEN-402	Development mode ignores brand file and plugin extras

## Usage

JIRA Issue	Description
ZEN-265	Browser cache does not refresh when brands/Zen are upgraded
ZEN-268	My Drafts shows non-Zen space drafts
ZEN-269	Blog list display improvement
ZEN-271	When editing a section, scroll browser window to view section on edit preview
ZEN-272	Make sure tabbed section is selected after editing it
ZEN-275	Increase vertical white space around headings and paragraphs
ZEN-292	When editing a section, newline markup gets erased (double backslashes are converted to single, then pruned on subsequent edit)
ZEN-294	Disconnect master page, menu, header, footer pages when overriding for a space
ZEN-302	Custom fonts not working on some Firefox clients
ZEN-306	Replace mouse-over-to-reveal with hide and show toolbar buttons
ZEN-314	Improve navigation to menu, header, and footer pages
ZEN-319	Monospace font not rendering properly in Zen
ZEN-320	Toolbar hotspot interferes with links in Zen header
ZEN-321	Make publish/revert control panel always visible on drafts
ZEN-325	Footer edit permissions being calculated incorrectly
ZEN-328	Redirect on login not working

ZEN-329	Create blog master layout broken
ZEN-339	Duplicate titles on title edit wizard cause error
ZEN-341	Space and page options should not show in menu on dashboard
ZEN-342	Should be able to get to the space directory from the top-level menu bar
ZEN-343	Page tree is broken on the space export screens
ZEN-344	IE .pngs have black backgrounds during fade-in transitions
ZEN-346	Web resources from other plugins missing
ZEN-347	Need ability to put add sections to pages from the Zen Master center column
ZEN-349	Title-less drafts cause error in draft list window
ZEN-350	Contributor dropdown on search filter is missing
ZEN-353	Untitled drafts are not cleaned up at page creation
ZEN-354	Attachments added during new page creation are not transferred to Zen draft
ZEN-356	Link back to view page missing from <b>Attachments</b> page
ZEN-363	Allow plugins to suppress Zen re-rendering pages
ZEN-367	Remove empty top-level toolbar menus
ZEN-373	Team Calendars missing Add Event and Add Calendar menu buttons
ZEN-374	Enhance Zen menus so top-level tab can be highlighted when on related pages
ZEN-396	Zen section IDs can duplicate on fast servers
ZEN-400	French language pack causes Zen not to render pages

## Macros

JIRA Issue	Description
ZEN-262	Special characters in titles display incorrectly in <code>page-tree</code> macro
ZEN-295	Blog-posts macro needs way to display simple titles list
ZEN-300	RSS Macro displays badly in columns
ZEN-322	Create macro that adds CSS classes to the <code>BODY</code> element

## Branding

JIRA Issue	Description
ZEN-124	Brand properties option to keep Edit pencils always visible
ZEN-270	Allow tabbed view to be created out of sections
ZEN-298	Change toolbar to default to <code>on</code>
ZEN-299	Toolbar tuning and initial showing settings (now defaults to <code>on</code> )
ZEN-311	Zen header feature image
ZEN-315	Two brands with the same <code>zenBrandName</code> confuse Zen
ZEN-323	Watermark not displaying properly in Safari 5.1 or Chrome
ZEN-323	Watermark shifts on screen size change in Chrome
ZEN-324	Add a <code>clear:both</code> to labels?
ZEN-326	Gracefully handle brands that contain the zipped parent directory
ZEN-330	Added header feature image option to <code>brand.properties</code>

ZEN-337	Brand list does not update after reinstalling built-in brands
ZEN-338	Missing brands cause error on page load
ZEN-345	Watermark does not display on space admin pages
ZEN-362	Missing <code>page.change</code> property in Confluence 3.3 & 3.4 (publish panel text)
ZEN-372	Incorrect watermark displays on Team Calendars
ZEN-384	Option to display stock page metadata (add <code>zenUseClassicMetadataFormat=yes</code> ) to <code>brand.properties</code>
ZEN-394	When <code>zenToolbarEnableForAnonymousUsers=no</code> , toolbar tab can still appear
